HUSQVARNA – M-ZT54

SKU – 970457701

Features:

MSRP:
\$6,599.99

Roll Over Protection System (ROPS)

The practical foldable ROPS protects the user and can be lowered in areas with low-hanging branches.

Heavy Duty Fabricated Deck

The robust cutting deck features twin 11 gauge sheet (1/4" combined) construction for added structure and spindle support. Cast iron blade spindles, impact resistant discharge shields and reinforced scalp rollers add to the commercial duty design

Cast Iron Spindle Housings

Bold cast iron blade housings built for durability and featuring sealed ball bearings.

Commercial drive system

Hydro-Gear's ZT series commercial transmissions are fully serviceable and offer higher ground speeds with smooth performance.

Pedal-assisted cutting deck lift

Ergonomically designed deck lifting system offers precise cutting height adjustment. Easy and quick adjustment from the operator's seat.

HUSQVARNA – 115H AUTOMOWER

SKU – 967951105

WEATHERPROOF

Automower® can be outside around the clock and is designed to function properly and unattended regardless of the weather conditions. Automower® is built to withstand the harsh Nordic climate without any problems.

LIFT & TILT SENSORS

If Automower® is lifted off the ground or tips over, the cutting automatically shuts off. In addition, the blades are rotating far from the outer edge of the machine. If Automower® meets an obstacle it will stop and redirect itself without causing any damage

The Automower 100 Series is designed for use on small, flat properties. Featuring streamlined controls, Automower models from the 100 series are designed for simple installation and efficient mowing. Just like the larger models, the 100 Series delivers excellent cutting results 24/7, clipping just a little grass at a time to ensure a freshly cut, always perfect look.

IDEAL FOR APPLICATIONS INCLUDING:

- Small to medium lawns
- Areas with some complexity
- Multi-unit compatible

DO IT YOURSELF:

The Husqvarna 115H Automower includes a Do It Yourself Installation Kit including boundary wire, guide wire, and turf staples to easily pin the wires into the ground.

AUTOMOWER® CONNECT@HOME

The Bluetooth® solution, Automower® Connect@HOME, gives you full control of the mower right in your smartphone. You can easily send start, stop and park commands, check and adjust the settings. Bluetooth® communication up to 30 meters range.

ANTI-THEFT ALARM

Different level theft protection for high security. If the mower carried away a high-sounding alarm starts and can only be deactivated with the mower's unique PIN code.

Limited Time Offer!
